SUMMARY

As a seasoned Frontend Developer, I excel in creating engaging user interfaces and smooth web experiences that captivate users. My proficiency in HTML, CSS, and JavaScript is complemented by a sharp eye for design and a strong focus on usability. With a history of successful collaboration with cross-functional teams, I consistently deliver projects that meet high-quality standards, on schedule and within budget. My robust problem-solving skills and dedication to keeping abreast of the latest web technologies drive my passion for innovation. I am eager to apply my expertise to contribute to cutting-edge projects and propel business success.

EXPERIENCE

INTERMEDIATE FRONTEND DEVELOPER & FEATURE TEAM LEAD

05/2025 - Present

RETRORABBIT / SMARTEK21

- Led a frontend feature team delivering enterprise-scale Angular 20 applications, guiding developers on architecture decisions, code quality standards, ticket refinement and sprint execution
- Drove event-driven state management with Signal Store, applying Events ✕ Reducers ✕ Effects ✕ Facade ✕ Store patterns to build predictable, scalable and maintainable state architecture across complex modules
- Mentored junior and intermediate developers through in-depth PR reviews, pair programming and structured feedback, enforcing clean architecture, reusable UI patterns and consistent coding conventions
- Architected and delivered reusable, high-performance UI components (advanced tables, dynamic filters, dropdowns, modals, multi-state cards, nested row expansions and similar elements) reused across multiple modules
- Collaborated closely with backend engineers, UX designers, business analysts and QA to design, refine and deliver polished, user-centric features across the application ecosystem
- Integrated frontend logic with typed services, RESTful APIs, interceptors and structured error handling to ensure reliability, robustness and seamless data flow
- Led performance optimisation initiatives including lazy loading, bundle optimisation, change detection tuning, memoised selectors and state isolation to improve responsiveness and runtime efficiency
- Owned CI/CD workflows in Azure DevOps, managing repositories, pull requests, code reviews, pipelines, automated testing and deployment processes for the team
- Coordinated sprint planning, backlog grooming, story estimation, technical scoping and cross-team communication with product and backend teams to maintain delivery alignment
- Troubleshoot complex UI issues such as race conditions, async failures, inconsistent state propagation, layout and render bottlenecks and performance regressions to stabilise production features
- Championed comprehensive documentation of frontend patterns, architectural decisions, component libraries and internal technical guidelines to support knowledge sharing, onboarding and team growth

INTERMEDIATE FRONTEND DEVELOPER

07/2024 - 05/2025

RAIN SOUTH AFRICA

- Developed and maintained customer-facing and internal web applications using Angular, HTML5, SCSS, and TypeScript
- Applied NGXS state management to organise application state, streamline data flow, and separate UI logic from domain logic
- Built reusable UI components, services, and shared modules to improve interface consistency and accelerate feature development across the team
- Integrated frontend features with REST APIs, implementing structured error handling, retry logic, optimistic UI updates, and efficient data-fetching patterns
- Optimised application performance by reducing bundle sizes, refining routing configuration, enabling lazy-loaded modules, and tuning change detection behaviour

- Ensured cross-browser compatibility and implemented fully responsive layouts to support a wide range of devices and screen sizes
- Collaborated with backend engineers, designers, and QA teams within agile sprint cycles to deliver frontend features on time and aligned with requirements
- Used Git and CI pipelines to manage code versions, maintain code quality, and support stable, reliable deployment workflows
- Diagnosed and debugged production issues, resolved UI defects, and contributed to improving overall application stability
- Documented coding standards, architectural decisions, and component usage guidelines to facilitate onboarding and ongoing knowledge sharing within the team

ANGULAR DEVELOPER

01/2023 - 07/2024

RAIN SOUTH AFRICA

- Leveraged team collaboration to deliver high-performance websites, balancing customer satisfaction and business objectives with proficiency in design and user experience best practices.
- Expert in crafting front-end UI designs using HTML5, SCSS, TypeScript, JavaScript, Angular, and Angular Material, ensuring responsive and aesthetically pleasing interfaces.
- Managed page data and facilitated data binding in the UI with Angular controllers and Models, enhancing functionality and user interaction.
- Implemented RxJS for asynchronous communication, elevating the user experience by enabling dynamic client-server interactions.
- Specialized in responsive web application development with Angular, HTML, CSS, and JavaScript, delivering intuitive and visually engaging user interfaces.
- Developed reusable, modular Angular components, directives, and services to expedite development, enhance code maintainability, and promote reusability.
- Integrated with backend services and RESTful APIs for seamless data retrieval and display, ensuring fluid frontend-backend communication.
- Collaborated with UX/UI specialists to translate designs and prototypes into user-centric interactions, optimizing UI/UX in line with project specifications.
- Focused on application performance optimization by addressing bottlenecks, reducing load times, and improving efficiency through strategic code enhancements and caching.
- Committed to application reliability and stability through rigorous unit and end-to-end testing, coupled with proficient debugging to resolve issues swiftly.
- Proficient in version control with Git and GitLab, managing code repositories, and supporting collaborative development with branching and merging strategies.
- Documented code, architecture, and technical specifications comprehensively, fostering knowledge transfer, simplifying onboarding, and ensuring maintainable codebases.

JUNIOR FRONTEND DEVELOPER

04/2022 - 09/2022

ACUMEN/FIFTYKNOTS

- Expert in C#, .NET Core, HTML, CSS, jQuery, and NopCommerce, delivering state-of-the-art solutions that propel business growth and elevate user experience.
- Proficient in solution design, collaborating with stakeholders to translate business goals into innovative, high-value technological solutions.
- Skilled in software development, crafting scalable and maintainable applications with C# and .NET Core, emphasizing code quality and system reliability.
- Specialized in frontend development, creating responsive and engaging interfaces that provide seamless user experiences on both web and mobile platforms.
- E-commerce specialist, adept at customizing NopCommerce for unique client needs, including advanced e-commerce features, payment processing, and third-party integrations.
- Committed to quality assurance, rigorously testing and debugging applications to meet the highest standards and deliver flawless software solutions.
- Dedicated to continuous improvement, keeping abreast of the latest tech trends and best practices to foster innovation and enhance development processes.

ASSISTANT CODE MENTOR

01/2022 - 04/2022

PROJECT CODEX

- Expertly guided aspiring developers towards coding proficiency, offering crucial support in problem-solving and navigating programming challenges.

- Delivered tailored mentorship and support across all skill levels, utilizing one-on-one sessions, code reviews, and actionable feedback to elevate coding capabilities.
- Provided technical assistance, clarifying programming concepts, aiding in code debugging, and helping overcome learning hurdles, while sharing industry best practices.
- Enhanced curriculum by partnering with educational teams, proposing updates, and creating additional resources to meet the dynamic needs of Learners.
- Fostered practical experience through project collaboration, mentoring from concept to completion, and bolstering mentees' problem-solving and experimentation skills.
- Promoted community engagement by participating in workshops and events, encouraging collaborative learning and knowledge exchange.
- Committed to continuous learning, staying abreast of the latest technologies, programming languages, and industry trends to maintain mentorship excellence.

CALL CENTER AGENT

01/2020 - 01/2020

CCI

- Expertly managed both inbound and outbound customer calls, ensuring professional, empathetic, and efficient communication.
- Resolved customer inquiries and issues promptly, employing active listening and problem-solving skills for high-quality service.
- Demonstrated in-depth product knowledge to address customer questions, recommend solutions, and leverage upselling opportunities.
- Diligently documented all customer interactions in the CRM system, contributing to data analysis for service enhancement.
- Advocated for customers by identifying patterns in feedback and collaborating with teams to drive improvements in the customer experience.
- Consistently met and surpassed call center performance metrics, upholding stringent quality assurance standards.

PART TIME SHOP ASSISTANT/WAITER

01/2019 - 06/2019

KIKI'S AFRICAN CUISINE

- Exceptional Customer Service: Warmly welcome guests, expertly guide them to their seats, and promptly present menus.
- Expert Order Handling: Accurately relay orders to kitchen and bar, ensuring all special requirements are clearly communicated.
- Diligent Table Management: Maintain immaculate dining spaces, swiftly clear and reset tables, and replenish necessities.
- Strategic Upselling: Skillfully recommend dishes, specials, and beverages to enrich guest experiences and boost sales.
- Precise Cash Handling: Efficiently process payments, ensuring accuracy in transactions and meticulous cash management.
- Collaborative Teamwork: Foster a cooperative environment with kitchen and service staff to deliver outstanding guest service.
- Rigorous Compliance: Strictly observe all health, safety, and hygiene standards, upholding restaurant protocols at all times.

EDUCATION

NATIONAL SENIOR CERTIFICATE

2019

ISIPINGO SECONDARY SCHOOL

SOFTWARE DEVELOPMENT

2022 -

PROJECT CODEX - NQF LEVEL 5

Java Oracle SE8 Programmer, Oracle Certified Associate; Full Stack Web Developer Training. Responsive Web Design, Agile Methodologies
